Fertility Line

Artron

Semi-Quantitative HCG Test Kit

How Artron Stands Out

- 100% Sensitivity
- 98.12% Specificity
- 99% Accuracy
- Made in Canada
- **Certifications**
  ISO 13485 certified company with Health Canada authorization, and select products registered under FDA 510K and CE mark.

What hCG Can Indicate About Your Health

Human chorionic gonadotropin (hCG) is a hormone made by the placenta after implantation. It's the main marker detected in pregnancy tests and rises early in pregnancy.

Number of Weeks Pregnant

hCG levels rise steadily in early pregnancy and can help estimate how many weeks pregnant you are

Potential Ectopic Pregnancy

Ectopic pregnancy occurs when a fertilized egg implants outside the uterus. One key sign is slower or plateauing hCG levels in early pregnancy

Post Abortion Verification

After an abortion, hCG levels should gradually return to pre-pregnancy levels. Tracking this decline helps ensure recovery is progressing normally

Find the Right Test for You

Product Name	Strip	Casette	Midstream	Specimen	Sensitivity
Human Chorionic Gonadotropin Test	✓	✓	✓	Urine	20 mIU/mL
hCG Serum/Urine Combo Test	✓	✓		Serum/Urine	20 mIU/mL
